

A treatise on algebra, in theory and practice

Filesize: 3.96 MB

Reviews

This ebook may be worth a read, and far better than other. It is among the most incredible ebook i have read. You will like the way the article writer publish this publication.

(Candace Raynor)

A TREATISE ON ALGEBRA, IN THEORY AND PRACTICE

To get **A treatise on algebra, in theory and practice** eBook, make sure you click the web link below and download the ebook or gain access to other information which are relevant to A TREATISE ON ALGEBRA, IN THEORY AND PRACTICE ebook.

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 34 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1854 Excerpt: . . . 8z--35z18. Bringing the unknown quantities to one side, and the known to the other, 8--5z318. Example 2. --2y4--3--80. Bringing the unknown quantities to one side, and the known to the other, 2j-3y148. Example 3. --ax--1614--bx. Bringing the unknown quantities to one side, and the known to the other, ax--bx16--14. Bringing a quantity from one side of an equation to the other, with its sign changed, is the same as adding the quantity, with its sign changed, to both sides. Thus, 3a;--1611 becomes 3a;--1616 11 16; which is equivalent to 3a11 16. For 5, when equals are added to equals, the sums are equal. 11. It follows, that we may change all the signs in an equation, without destroying the equality. For this is the same as transposing all the quantities, and reading the members 1 in the opposite order. 12. III. Adding. Example 1. --4y3y--21315--14. Adding the unknown quantities together, and the known, 5y14. Example 2. --2z6s16--64. Adding the unknown quantities together, and the known, 4z--48. Then, changing all the signs 11, Example 3. --a2aax-- and r3a3i. Adding the unknown quantities together, and the known, (a2a6)a3(a6). This part of the rule requires no demonstration. 13. IV. Dividing. Example 1. --530. Dividing both sides, by 5, 30 y 5 6. Example 2. --(a--b)x--c. Dividing both sides, by a6, a--b Example 3 (c--d)ze2--cP. Dividing both sides, by c--d, sc-dcd We require the value of the unknown quantity taken only once: and, therefore, we divide both sides by its...
