Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Special Method in Arithmetic It is our purpose in this volume to make plain to teachers in elementary schools the purpose of teaching arithmetic, to outline fully a course of study based upon this controlling idea, and to discuss and illustrate the method of handling some of the chief topics. It is strictly a teacher s book, and not designed for use by children. It has been generally felt that arithmetic stands aloof from other studies, but the attempt is made here to show a very intimate and important relation to the other studies, one vital in fact to the proper plan and treatment of the whole subject. This volume is one in a series of special methods, as follows: Reading of English Classics, Primary Reading and Story Work, Geography, History, Elementary Science, Language, and Manual Arts. The course of study for the eight grades based on the plans worked out in these eight volumes is now in press and will appear in two volumes. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
